

Student Ministry Media Policy

Purpose

Our desire is to keep students as safe as possible. We also understand that we live in a digital world. Avoiding media exposure is something that is very hard to do and almost impossible to enforce. This policy gives parents and students realistic expectations of what their exposure will be to media on Wednesday nights.

Media Policy

On Wednesday nights each campus will have a “photos being taken” sign at check in. This will let parents and students know that at any time there could be media team members present capturing photos of the evening.

There are also thousands of students with cell phones present every Wednesday night. Taking photos of their experience and posting them to social media is quite common. This sign also makes students/parents aware of this possibility.

If a parent takes issue with this sign at check in it is the responsibility of the PoSM at each campus to have a conversation with the parent explaining the policy.
